TO OUR HONORABLE IDAHO STATE LEGISLATORS

THANK YOU FOR YOUR DEDICATION IN THIS 58th IDAHO STATE  
LEGISLATURE, *2nd Regular Session*

As this legislative session draws to an end, we wanted to show our appreciation to all the members of Idaho's *Citizen's Legislature*. It takes a special type of individual to participate in this process which is misunderstood and unappreciated by many.

We at *ABATE of North Idaho, Inc.* have also participated this session with the introduction and successful passage of *Senate Bill 1367*. As with any legislation, not all our Representatives will necessarily vote unanimously for a particular piece of legislation, nor would we expect that to happen. That is why the Democratic Process of *checks and balances* works so well throughout the nation.

For those that voted for and supported *SI367*, ABATE of North Idaho appreciates what you have done for the motorcyclists in this Great State. The passage of this bill has provided a no-cost, common sense solution to the long standing problem with signalization as it pertains to motorcycles. Idaho will long be remembered as a pioneer regarding this legislation and is only the 3rd state in the nation to address this issue. Many states will look to Idaho as an example and implement similar legislation for the benefit of their motorcyclists.

We again thank you and wish all a well deserved rest and safe summer.

Tim J. Herzog

Deputy Coordinator  
State Legislative Chairman
